ASA's Coronavirus Legislative Update

The link below is a short video by Bob Redding, ASA National's Legislative Representative in Washington DC. Bob and his team have been working very hard protecting the interest of the independent mechanical & collision service industry during this coronavirus pandemic.. **This video was filmed late last night and discusses what legislation congress is putting together to assist small business during the coronavirus pandemic.**

This legislation is very fluid and is changing as I send this message. ASA National, ASA Ohio, and Bob Redding will keep you updated as the legislation proceeds through Congress.

The ASA National staff has been working overtime to ensure ASA members get the latest info on this important legislation for our industry. We will inform you immediately if we need a call to action by the membership.
