The outbreak of the COVID19 virus is widespread and has impacted automotive repair shops nationwide.

The economic repercussions from the outbreak of Coronavirus (COVID19) continues to expand as more and more state and local officials begin to declare a state of emergency and enforce closures. We understand that necessary measures are being taken to slow the spread of

COVID19.

U.S. Congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act in response to this pandemic to provide fast relief to Americans. The Paycheck Protection Program (PPP) was created under the act in order to provide loans to small businesses during this critical time.

Within three weeks of the PPP being signed into law, the funding for the program has already run out.

ASA is asking its members to click the link below to send a letter to urge their members of Congress to act now and pass additional funding for the PPP.
